Hi Ashley,

Thank you for sending an agenda. We would like to add a quick (15 min) discussion on the schedule at the beginning.

Also, we want to make sure that we are getting the most value for our time and are not sure that discussing general comments will get us where we need to be. Unless we know the issue/comment beforehand we are not able to provide a valuable response on the spot at the meeting. For aesthetics and biology, I think it might be more useful if the EIR reviewer meets/speaks directly with our specialist to cover specific issues, rather than discussing these issues with 8+ people in the room who are all not relevant to the discussion. If you have any specific comments you could send now we could prepare for those today.

Regarding the returned sections, we are not yet ready to discuss GHG or Public Services. We could discuss AQ, Hazards, Noise and Land Use, however, again, I'm not sure that walking through our general response would be the best use of everyone's time. Rather than allotting 15-30 minutes for each topic, I think 30 minutes to discuss some specific comments will be sufficient.

And finally, regarding groundwater, Trey will not be available for tomorrow's meeting. If the comments are directly related to the hydrology or utilities section, we could have our analyst participate, but otherwise we may need to postpone that discussion.

Thanks,
Megan

Hi Megan,

Attached is my draft agenda. Please let me know if you would like to discuss any additional items or feel that particular discussions may not be necessary. We want the meeting to be as useful to you as possible.

My thought was that we would start with any questions/concerns you may have on the returned

sections (AQ, GHG, hazards and public services) and then move on to general discussions on the sections you have not seen back with comments yet (aesthetics, groundwater and biology).

It may be helpful if the consultants are available for a phone call, but I don't know if they will necessarily need to be in attendance.

See you at 9:00am tomorrow.

Thanks,

Ashley

Hi Ashley,

I just wanted to confirm our meeting tomorrow and was wondering if you could send us an agenda so we can plan accordingly.

Thanks,
Megan
